RISK TO INVESTORS:

- 1. As part of our growth strategy, we intend to expand our business operations to geographical areas in which we have limited operation history. We cannot assure you that our expansion plans will be profitable or that such expansion will not adversely affect our business, results of operations and financial condition.
- 2. We significantly rely on trading and dealerships of multi-brand Electric Vehicles, and any interruption in the said business segment may adversely affect our business and results of operations.
- 3. We depend on our dealers for a significant portion of our revenue, and any decrease in revenues or sales from any one of our key intermediaries may adversely affect our business and results of operations.
- 4. We propose to use a part of the Net Proceeds of the Issue towards funding capital expenditure proposed to be incurred towards setting up of eleven dealership stores in various states in India. We are yet to purchase real estate or enter into long-term leasehold arrangements or enter into rental agreements at locations suitable for new stores for our expansion in relation to setting up and operation of our proposed new stores. In case we are unable to open the stores in a timely manner as mentioned in the chapter "Objects of the Issue", we may fall short of the revenue targets of the Company and this would have an adverse effect on our business, financial condition, results of operations and growth prospects.
- 5. We plan to expand into new geographies and may be exposed to significant liability and could lose some or all of our investment in such regions, as a result of which our business, financial condition and results of operations could be adversely affected.
- 6. Our Company is dependent on external suppliers for its product requirements. Any delay or failure on the part of the external suppliers to deliver products, may materially and adversely affect our business, profitability and reputation.
- 7. A large part of our revenues is dependent on a limited number of brands. The loss of any of our major brands or a decrease in the supply or volume from such brands, will materially and adversely affect our revenues and profitability.
- 8. We operate in a competitive industry and our market share may be adversely impacted in case we do not keep ourselves appraised of the latest consumer trends and technology and if we fail to compete effectively in the markets in which we operate.
- 9. Our inability to promptly identify and respond to changing customer preferences or evolving trends may decrease the demand for our merchandise among our customers, which may adversely affect our business.
- 10. Our stores are concentrated mainly in Telangana and Andhra Pradesh, and we generate majority of our retail sales from our stores in these states. Any adverse developments affecting our operations in these states could have an adverse impact on our revenue and results of operations.
